Moving Forward with Technology & Inclusive Innovation

Bill Generett

**VP of Community Engagement
Duquesne University**

According to the World Economic Forum, the COVID-19 pandemic has accelerated 10 key technology trends.

1. Online Shopping and Robot Deliveries
2. Digital and Contactless Payments
3. Remote Work
4. Distance Learning
5. Telehealth

According to the World Economic Forum, the COVID-19 pandemic has accelerated 10 key technology trends.

6. Online Entertainment

7. Supply Chain 4.0

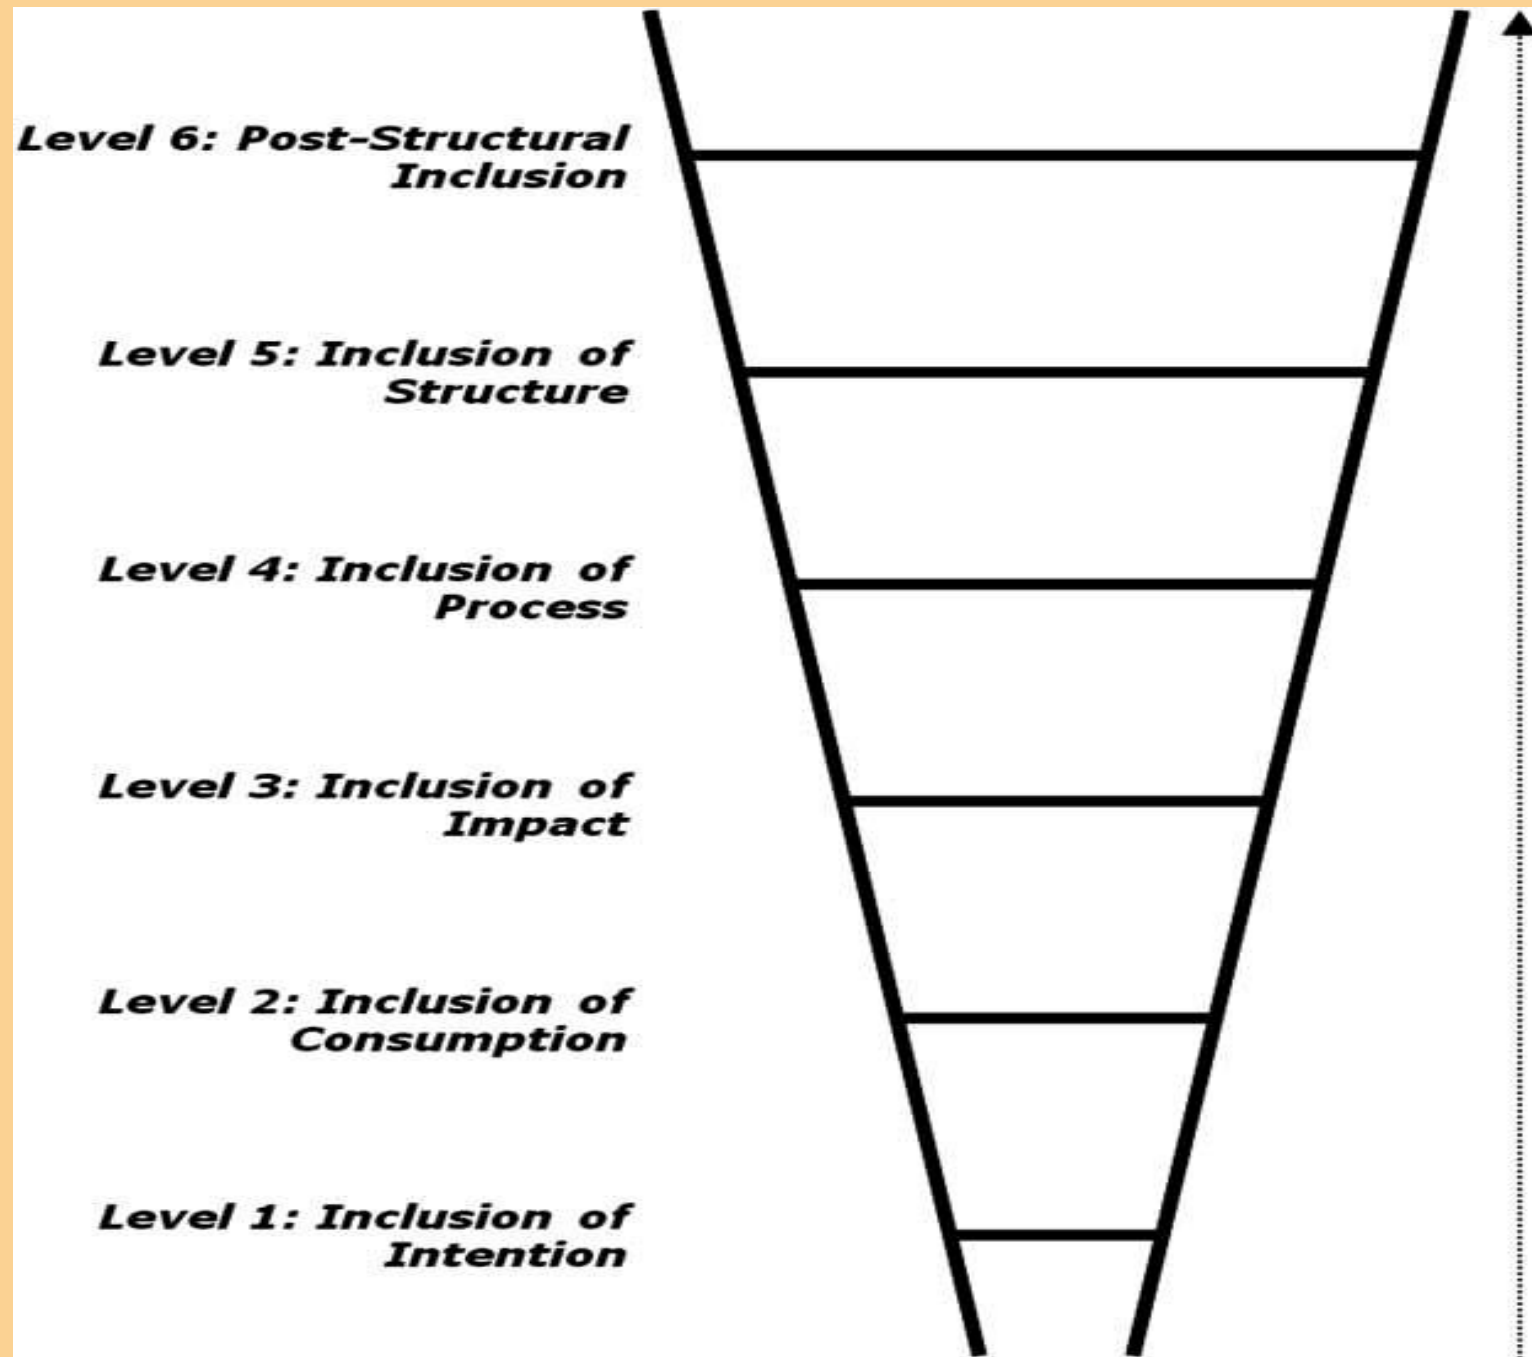

8. 3D Printing

9. Robotics and Drones

10. 5G and Information and Communications Technology

Inclusive Innovation –

The means by which new goods and services are developed for and/ or by those who have been excluded from the mainstream; particularly those living on the lowest incomes.

What challenges does your organization experience with inclusion in technology and innovation?

Please respond via chat

**What solutions has your
organization been able
to implement?**

Please respond via chat

Recommended Solutions

- Always ask, WHO is being left out?
- Try your best to solve the problem. Is it a hardware issue? If so can you get them a computer. Can you provide a cell phone subsidy? Etc....
- Be creative - You will see this creativity in action in the next sessions

Recommended Solutions

- Work to partner with those in the tech sector
- If you cannot solve the problem with a technology solution, use traditional methods of connecting and communicating with your constituents.
- Advocate for the expansion of broadband and funding for laptops, iPads etc.. for students.

Questions?

Please share via chat

Thank you!

Virtual Technology Poll
