

The Jefferson Regional Foundation is pleased to offer this initial review of trends in the Jefferson area identified by the 2020 US Census with local outreach supported by the “Jefferson Counts” Campaign. The Jefferson Regional Foundation recognizes that place matters in regard to our health and that the social determinants of health have a significant effect on the overall wellness of our residents and region.

Who Lives Here?

- The Jefferson area is becoming more diverse. People of color comprise 21% (44,005 residents) of the Jefferson area population according to the 2020 US Census compared to 13% in 2010.
- The white population in the Jefferson area decreased by over 8% to about 169,000 people, but still remains the area’s largest racial group.
- More than 50% of Jefferson area municipalities experienced over 100% growth in residents of color between 2010 and 2020 including: Baldwin, Bethel Park, Brentwood, Dravosburg, Elizabeth Township, Forward, Glassport, Jefferson Hills, Liberty, Lincoln, Pleasant Hills, Port Vue, South Park, Versailles, and Whitehall.

“Even where overall population change is relatively flat, there are communities in the South Hills and the Mon Valley that are seeing rapid shifts in the characteristics of their residents.”

— Chris Briem, Regional Economist, University of Pittsburgh Center for Social and Urban Research

2 of every 10 Jefferson area residents is a person of color

2020 Population of Jefferson Area Communities¹

Total	White	Black	Multi-Racial	Asian
213,041	169,036	23,757	10,138	7,882

This is the continuation of a series of snapshots about our communities. The Jefferson area comprises portions of the South Hills and Mon Valley regions of Allegheny County. A map of the Foundation’s service area can be found on the second page and with previous snapshots at www.jeffersonrf.org.

1. Populations noted represent approximately 99% of the Jefferson area population.
